

# Managed Care Plans

Managed care plans provide the tools to handle work-related illnesses and injuries more efficiently and effectively.

## Effective Workers' Compensation Claim Handling

Accurate and Timely Reporting

Quality Medical Attention

How are you doing?

Excellent Communication

### Managed Care Plan Benefits

- Employees receive quality care from a network of doctors who have experience treating work-related injuries
- Clear procedures and better communication between your organization, the injured employee and the health care provider
- Nurse case managers available for lost time and complex medical-only cases
- Employees can return to work faster
- Employers save money with negotiated medical rates and more efficient procedures

An intervention program, including early reporting, employee-centered case management and return to work programs, **reduced claim dollars by \$2,329 and number of compensated days by 19.4 on average.**<sup>1</sup>
