

EMC Offers Online Incident Reporting and Tracking System for Schools

EMC is partnering with SafeSchools Alert to provide an online incident reporting and tracking system specifically designed for school use. This service makes it easy for students, staff and parents to confidentially report bullying incidents, school violence, harassment or any safety concerns to your administration anytime, 24/7.

How much does it cost?

As with our other valuable loss control services, SafeSchools Alert is provided for EMC policyholders at no additional charge.

How does it work?

The system lets you receive tips five different ways:

1. Text message
2. Web
3. Email
4. Phone
5. SafeSchools Alert mobile app (available for iOS and Android)

Every tip received is logged in your custom SafeSchools Alert system so you can investigate, manage and resolve issues with a comprehensive set of tools and reports. SafeSchools Alert is to be used in conjunction with SafeSchools Bully Response for Staff online training.

How do I get started?

For more information, call 800-434-0154 or visit safeschoolsalert.com.
