

## EMC Offers Streaming Safety Videos

EMC makes it easy and convenient for your employees to receive the training they need. That's why we partnered with BASC Group, Inc. to provide our commercial policyholders with on-demand access to online safety videos.

### How much does it cost?

As always, access to our video library is free for EMC policyholders.

### What topics are covered?

You will have unlimited access to over 400 high-quality videos to satisfy your safety and compliance training needs, including: contractor and construction safety, driver safety, human resources topics, groundskeeping safety, OSHA compliance, sanitation, retail safety, security and emergency preparedness, and warehouse safety.

### Can I track and assign training videos?

The service tracks previously viewed titles and allows you to assign videos to employees as part of your safety training program.

### How do I get started?

All you need to access the video library is your EMC policy number and email address. Visit [www.emcins.com/losscontrol](http://www.emcins.com/losscontrol) and click **Safety Videos**. If you have questions, email [losscontrol@emcins.com](mailto:losscontrol@emcins.com).

**400+**  
streaming videos

**24/7**  
availability

**FREE**  
to EMC policyholders
