### **EMC Insurance Companies Partners With Octo Telematics for Fleet Initiative**

DES MOINES, IOWA (March 31, 2017) — EMC Insurance Companies announces a partnership with Octo Telematics, a leading global provider of telematics and data analytics solutions for the auto insurance industry. EMC's Peak Fleet™ telematics program, currently in the pilot stage, will serve as a partner for Octo's commercial telematics reporting dashboard to promote safer driving and maximize fleet performance.

Telematics can help minimize risk with real-time insights that improve driving, reduce claims and maximize productivity. Peak Fleet will involve independent insurance agents directly in the process of offering telematics to policyholders. The program will support agents with all necessary information and benefit small vehicle commercial fleets of all sizes.

"We're excited to be working with Octo Telematics to roll out our Peak Fleet program for commercial lines," says Scott Jean, executive vice president of finance and analytics at EMC. "Octo's years of expertise in insurance telematics, combined with their fleet platform and crash and claims capabilities, made them a very attractive partner and obvious choice to help us serve our commercial auto policyholders and agents. We knew we would be in the best of hands and be able to quickly roll out a top-quality program that will make fleets safer and more productive."

The Octo fleet platform includes a secure website and smart phone app so fleet managers can get real-time insights on fuel consumption, vehicle health, location, driver safety and more. Knowing drivers' habits and whereabouts throughout the day can help managers to optimize routes, maximize productivity, save money and increase safety measures.

"Telematics in commercial fleets is a win-win, with clear benefits for both insurance companies and their policyholders," said Nino Tarantino, CEO of Octo Telematics North America. "Using telematics creates better and more efficient drivers, decreases speeding and idle time, and enables fleet managers to improve the bottom line. We are happy to be the telematics partner to enable EMC Insurance and its commercial fleet policyholders to reap such benefits."

#### **About EMC Insurance Companies**

EMC Insurance Companies is among the top 50 insurance organizations in the country based on net written premium, with more than 2,300 employees. The company was organized in 1911 to write

workers' compensation protection in Iowa. Today, EMC provides property and casualty insurance products and services throughout the United States and writes reinsurance contracts worldwide. For more information, visit [www.emcins.com](http://www.emcins.com) and [www.CountonEMC.com](http://www.CountonEMC.com).

### **About Octo Telematics**

Octo is one of the largest global providers of telematics and data analytics solutions for the auto insurance industry. Founded in 2002, today Octo is the largest and most experienced insurance telematics company in the world, transforming auto insurance through behavioral, contextual and driving analytics for more than 60 insurance partners. Octo has more than 4.8 million connected users and one of the largest global databases of telematics data, with over 146 billion miles of driving data collected and 379,000 crashes and insurance events analyzed (as of December 31, 2016). Octo applies proprietary algorithms to this market-leading database to deliver powerful new insights into driver risk, informing solutions that benefit both auto insurance companies and policyholders.

The company is headquartered in London, with offices in Boston, Rome, Stuttgart, Madrid and Sao Paulo. For more information, visit [www.octotelematics.com](http://www.octotelematics.com) or follow Octo on Twitter: [@octousa](https://twitter.com/octousa) [@octotelematics](https://twitter.com/octotelematics).
